lombok

C-2 创建: 张林伟, 最后修改: 张林伟 04-08 14:45

IDEA插件 lombok

```
へ 代码块
                                                       2
                                                                  <lombok.version>1.18.0</lombok.version>
        3
                                                       </properties>
        4
        5
                                                        <dependency>
                                     % complete compl
                                           6
        7
                                                                        <version>${lombok.version}</version>
        8
        9
                                                                     </dependency>
```

jar包提供注解,插件在编译器编译时通过操作AST(抽象语法树)改变字节码生成。

类:

@Data、@AllArgsConstructor、@NoArgsConstructor、@Slf4j、@Log4j、@Log4j2、@Value、@ToString、@EqualsAndHashCode、@Accessors

属性: zhanglinwei0

@Setter、@Getter

示例:

```
Structure

| Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Structure | Struc
```
